Introduction

A Culture of Mathematical Expression	viii
Communication: The Critical Piece for Student Success	viii
Challenges That Face Math Educators	x
Becoming a Facilitator of Mathematical Expression	x
Infusing Communication into Mathematics	x
Supporting Learners with Math Anxiety	xi
Supporting Learners Who Struggle in Mathematics	xi
Supporting English Language Learners	xii
The Three-Part Problem-Solving Lesson: A Structure for Communication and Investigations	xiii
Minds On/Getting Started	xiv
Working on It/Action	xiv
Consolidation/Reflecting and Connecting	xiv
Assessing Math Learning	xv
Using Descriptive Feedback to Promote Strong Communication and Problem-Solving Skills	xvii

Chapter 1

A Culture of Collaboration and Inquiry	1
Indicators of Success	1
What the Research Says About Cooperative Learning	2
Elements of the Cooperative Learning Experience	3
Teaching Social Processes: Equity for All Learners	4
Positive Interdependence and a Common Goal	7
Individual Accountability	7
Face-to-Face Interactions	8
Facilitating Cooperative Learning	8
Cooperative Groupings	8
Assigning Group Roles	8
Promoting Equity	10
Assessing Cooperative Learning	10
Cooperative Learning Structures	11
Think-Pair-Share	11
Placemat	12
Three Stay, One Stray	17
Gallery Walk	17
Inside-Outside Circle	19

Chapter 2

Mathematical Discourse	21
Indicators of Success.....	21
What the Research Says About Mathematical Discourse.....	22
Assessing Mathematical Discourse.....	23
Facilitating Mathematical Discourse.....	24
Creating a Culture of Meaningful Talk	25
Encouraging Complex Discourse.....	25
Effective Questioning	26
Supporting English Language Learners.....	28
Wait Time	30
Mathematical Discourse: Skills and Structures.....	31
Conversational Skills	31
Talk Prompts.....	31
Teaching Strategies	33
Pattern Block Talk	33
Clipboard Walk and Talk.....	35
It Is and It Isn't	36
Concept Attainment.....	37
Mathematical Clothesline.....	39
Wanted Number.....	43
Math Congress	45
Bansho	49

Chapter 3

Reading in Mathematics	51
Indicators of Success.....	51
What the Research Says About Reading in Mathematics	52
Assessing Reading in Mathematics.....	53
Facilitating Reading in Mathematics.....	54
Infusing Reading into Your Math Program	54
Supporting English Language Learners.....	55
Supporting Readers Who Struggle.....	57
Building a Mathematical Word Wall.....	57
Using Mathematical Picture Books.....	58
Reading in Mathematics: Skills and Structures	59
Key Reading Strategies	59
Reading Word Problems.....	61
Reading Mathematical Symbols.....	62
Teaching Strategies	63
Picture Book Read-Aloud.....	63
Visualizing Mathematical Text.....	65
Mathematical Text Paraphrasing.....	67
Mathematical Text Sorting	68
What's the Problem?	69
Show Me the Math!.....	70
Mathematical Glyphs	73
Mathematical Recipes.....	75

Chapter 4

Writing in Mathematics	79
Indicators of Success.....	79
What the Research Says About Writing in Mathematics	80
Assessing Mathematical Writing	81
Facilitating Mathematical Writing.....	82
Classroom Organization	83
Supporting English Language Learners	83
Encouraging the Use of Pictures	84
Modelling the Writing Process.....	88
Mathematical Writing: Skills and Structures	89
Cooperative Writing.....	89
Graphic Organizers	90
Teaching Strategies	103
Affective Writing Explorations.....	103
My Best Math Moment.....	105
Defining a Mathematical Term or Concept	106
Lesson Feedback.....	108
Exploring Mathematical Proofs	108
Lateral-Thinking Explorations	109
Lateral Thinking with Pictures.....	112
Recording Mathematical Discoveries	114
Exploring Concept Circles.....	118
Exploring Mind Maps	120
Exploring Concept Maps.....	125
Mapping Your Learning.....	130
Math on the Back.....	131
Line Masters	133
References	167
Index.....	171
