

## Zoom In: This Week At Home

Hello and welcome! In this video, I will explain “This Week At Home” and demonstrate how to use this feature effectively.

### This Week At Home

Begin by selecting the “This Week At Home” button on the home page, or by selecting “This Week At Home” from the navigational menu at the top of the page.

The student-home website provides families with lesson information, family activities, online activities, songs, Scripture readings and prayers that may support the lessons taught each week in school. Please note that teachers, responsive to the needs of students, may use professional judgment in adjusting what is taught each week.

To browse this guide, select the week and set of dates from the dropdown menu, or use the calendar feature to the right-hand side. Below you will see details regarding the Student Book or Big Book pages (grades 1 and 2 only), Posters, online activities, songs, and Scripture and prayers students and families can participate in together. Let’s look at an example from Grade 3. In Week 6, students reflect on the Visitation and pray a decade of the Rosary with their families. They may also watch a video and complete an online activity with them. Select any media or print resource page to grow in faith together.

### Conclusion

This concludes our demonstration of “This Week At Home” on the *Growing in Faith, Growing in Christ* student-home website. Still have questions? Check out our other videos to see if we can help. Thank you for watching!
