

- There are two ways to adapt your plan:
- Add Mathology lessons
 - Upload your own lessons

The screenshot displays the Mathology interface. On the left is a vertical list of lessons with their completion dates. The main area shows a detailed view of the 'Counting (Sept.)' lesson, listing several activities like 'What Would You Rather?', 'Ways to Count', and '1 Counting: Counting to 20'. On the right, a sidebar contains a filter menu with categories like 'All Lessons', 'Clusters - All', 'All Licensed Grades', 'Strand - All', and 'Type - All'. Below the filter menu is a grid of lesson cards, including '28 Operational Fluency: More or Less' and '29 Operational Fluency: Adding to 20'. At the bottom of the sidebar, a green button with a white plus sign and the text '+ Add non-Mathology Lesson' is circled in orange. An orange arrow points from the text box above to this button.

1. To add Mathology lessons, view additional lessons by cluster, grade, strand, or type. Here we have clicked **All Lessons**.

2. Click on a lesson or multiple lessons.
3. Click the blue box and lessons will be added.

3. To add your own lessons,* click **Add non-Mathology Lesson**. Enter the title, select document type, provide a description, and enter the URL. Click **Save**.

The screenshot shows a modal window titled "Add non-Mathology Lesson" with a close button (X) in the top right corner. The form contains the following fields:

- Title:** My Counting Activity
- Type:** PDF
- Description:** Provides practice in adding to 20
- URL:** <https://drive.google.com/drive/my-drive>

A green "Save" button is located at the bottom right of the form. Orange circles highlight the title, type, description, URL, and the "Save" button.

*Mathology.ca subscribers shall read and adhere to Pearson's [Terms of Use](#).

4. Click **All Lessons**, then select **+ Add non-Mathology Lessons**. Use the scroll bar to find your lesson.
5. The process to add your own lesson is the same as adding Mathology lessons. Drag and drop your lesson. (Wait 5-10 seconds for your lesson to appear.)

The screenshot displays the Mathology interface with several key elements highlighted by orange circles and an arrow:

- Lesson List:** A sidebar on the left lists various math topics such as Counting (Sept.), Number Relationships 1 (Sept.), Repeating Patterns (Oct.), and others.
- Lesson Detail View:** The main area shows details for the 'Counting (Sept.)' lesson, including a 'Clear All Complete' button and individual lesson cards like 'What Would You Rather?', 'Ways to Count', and '1 Counting: Counting to 20'. Each card has a 'Complete' checkbox and action icons.
- Lesson Management:** A red PDF icon for 'My Counting Activity' with the URL <https://drive.google.com/drive/my-drive> is highlighted. An orange arrow points from this lesson to the 'Add non-Mathology Lesson' button.
- Filters:** A dropdown menu on the right is set to 'Favourites / Non-Mathology Lessons'. Other filters include 'Clusters - All', 'All Licensed Grades', 'Strand - All', and 'Type - All'.
- Lesson Selection:** A grid of lesson thumbnails is visible, including 'graphing', 'Mathology Test Doc', and 'My Counting Activity' (which is circled).
- Action Button:** A green button labeled '+ Add non-Mathology Lesson' is circled at the bottom right.
