1. a) Look at the map and the table of distances. What is the distance between each pair of towns?

- Charlottetown and Cape Breton
- Fredericton and Cape Breton
- Halifax and Moncton
Number Relationships (cont’d)

b) Order the distances in part a) from least to greatest.

2. Represent the distance between Halifax and Fredericton in two ways. Use base ten blocks for one way.

3. Jose lives in Charlottetown. Last year his family went to Halifax in the summer and Fredericton in the fall. Which trip was farther? Use place value to explain how you know.

4. Gabrielle lives in Fredericton. Plan a road trip for her that will have a distance of about 1000 km round trip.
