

Fiche 19

Plus de régularités croissantes

The dashed box contains three rows of patterns made of squares:

- Top Row:** Four patterns showing a central vertical column of squares with two squares branching out from the top and bottom, increasing in size from left to right.
- Middle Row:** Three patterns showing a diagonal line of squares, increasing in length and complexity from left to right.
- Bottom Row:** Three simple patterns: a vertical column of two squares, a horizontal row of three squares with one square centered above it, and a horizontal row of five squares with one square centered above it.
