

# Activity 4 Assessment

## Plotting and Reading Coordinates

### Locating and Plotting Points on a Coordinate Grid

Uses coordinates to describe the location of points on a grid

“The treasure chest is located at (6, 3).”  
 (« Le coffre au trésor est situé à (6, 3). »)

Plots, locates, and labels points on a grid

“I plotted A(3, 8), B(3, 4) and C(9, 4). I joined the points to create a right triangle.”  
 (« J’ai tracé A(3, 8), B(3, 4) et C(9, 4). J’ai joint les points pour créer un triangle rectangle. »)

Uses positional language to describe the location of a point on a grid in relation to another point

“Move right 6 squares and down 4 squares from Point A to get to Point C.”  
 (« Se déplacer de 6 cases à droite et de 4 cases en bas à partir du point A pour aller au point C. »)

Flexibly models and describes the location of the vertices of a polygon on a grid

“The vertices of the trapezoid are at: A(1, 4), B(3, 8), C(8, 8), D(10, 4).”  
 (« Les sommets du trapèze se trouvent à : A(1, 4), B(3, 8), C(8, 8), D(10, 4). »)

### Observations/Documentation
