

Master 19: Activity 11 Assessment

Patterns in Cycles: Creating and Extending Patterns in Cycles

Creating and Extending Patterns in Cycles Behaviours/Strategies			
<p>Student identifies the elements of a cycle but struggles to place them in any sequence.</p>  <p>“This picture is winter, this one summer. This one means spring and this one means fall.”</p>	<p>Student creates a representation of the pattern cycle once, but struggles to demonstrate how it continues from any given point.</p>  <p>“When I start with this one, I don’t know what comes next.”</p>	<p>Student creates a representation of the pattern cycle once, but struggles to extend it, or demonstrate how it continues repeatedly.</p>  <p>“It’s done. I don’t know what comes next.”</p>	<p>Student creates different representations of patterns in cycles and extends them with ease.</p>
Observations/Documentation
