

Master 62: Activity 25 Assessment

Comparing and Ordering Unit Fractions

Comparing and Ordering Unit Fractions Behaviours/Strategies		
<p>Student divides into two parts but parts are not equal.</p> 	<p>Student can divide in half but struggles to partition into thirds, sixths, and eighths.</p>  <p>“How do I make 4 equal parts?”</p>	<p>Student can divide into equal parts but struggles to name the unit fraction.</p>  <p>“I don't know what each part is called.”</p>
Observations/Documentation		
<p>Student divides into equal parts and names unit fraction but doesn't realize that the more parts, the smaller the part.</p>	<p>Student compares two parts but struggles to order many parts.</p>  <p>“One-half is bigger than one-fourth.”</p>	<p>Student successfully compares and orders unit fractions.</p>  <p>“From biggest to smallest: one-half, one-fourth, one-eighth.”</p>
Observations/Documentation
