

## Master 13: Activity 6 Assessment

### Likelihood of Events

Determining the Likelihood of an Event Behaviours/Strategies			
<p>Student struggles to use the language of chance and has difficulty identifying and describing events according to their likelihood.</p>	<p>Student decides the likelihood of an event based on ideas of luck. Decisions and descriptions of likelihood are impulsive and thinking cannot be justified.</p> <p>“I am certain to see four red cars on the street today because red is my favourite colour.”</p>	<p>Student uses the language of chance to identify and describe single events. Student compares events and most often says which one is more likely, but has a difficult time justifying his or her thinking.</p> <p>“It is more likely that I will sleep tonight, but I don’t know why.”</p>	<p>Student uses the language of chance to compare and describe events. She or he compares events and describes which one is more likely.</p> <p>“It is more likely to rain today because it is cloudy outside.”</p>
Observations/Documentation
