Master 37: Activity 18 Assessment
Mapping

Reading a Map Behaviours/Strategies			
Student has little, if any, familiarity with maps.	Student has some familiarity with maps but has difficulty connecting a 2-D map with a 3-D model.	Student reads the map but has difficulty representing objects shown on the map.	Student reads the map and represents the objects and places shown.
Observations/Documentation			

Creating a Model Behaviours/Strategies			
Student is unable to locate objects on the model.	Student locates some objects on the model.	Student locates all objects but spacing of the objects does not match the map.	Student easily creates a model that matches the map.
Observations/Documentation
