

Master 28: Activity 10 Assessment

Comparing Sets Pictorially

Counting and Comparing Sets Behaviours/Strategies				
Student does not say the number sequence correctly when counting bananas. "1, 2, 3, 5, 7, 8, 10"	Student loses track of the count, misses bananas in the count, or counts bananas more than once. 	Student compares the sets using one-to-one matching. 	Student compares the sets using counting. "1, 2, ..., 5, 6"  "1, 2, ..., 6, 7, 8"	
Observations/Documentation				
Student uses number relationships to compare sets. "1 more than 5"  "3 more than 5"	Student uses mental strategies to compare sets (e.g., 8 comes after 6 on a number line). 	Student determines which set has more but has difficulty determining how many more.	Student is able to determine which set has more and how many more.	
Observations/Documentation
