

Comparing Objects by Mass Behaviours/Strategies		
<p>Student thinks a larger object has a greater mass.</p>  <p>“The blue block is heavier because it’s bigger.”</p>	<p>Student uses hands to compare the mass of objects and always says the object in his or her dominant hand is lighter/heavier.</p>	<p>Student thinks the heavier object is in the higher pan of the pan balance.</p>  <p>“This one is heavier.”</p>
Observations/Documentation		
<p>Student compares the mass of each object to all others.</p>	<p>Student correctly orders the objects but has difficulty using measurement language to compare the masses.</p>	<p>Student correctly orders the objects and uses measurement language to compare the masses.</p>
