

# Master 47: Activity 20 Assessment

## The Calendar

Reading the Calendar and Ordering Months Behaviours/Strategies				
Student does not know the ordinal number vocabulary.	Student knows some ordinal numbers but struggles with those that sound different from the counting numbers (i.e., first, second, third).	Student omits the month when reading the date on a calendar.  “Today is Monday the 5th.”	Student mixes up Tuesday and Thursday when only abbreviations of days are shown.	
Observations/Documentation				
Student reads the date on a calendar but mixes up the order.  “Today is March 2nd Wednesday.”	Student mixes up the order of the months of the year.	Student names the months in the correct order but has difficulty matching them to ordinal numbers.	Student reads dates on a calendar, orders the months of the year, and matches them to ordinal numbers with ease.	
Observations/Documentation
