

Master 37: Activity 14 Assessment

Skip-Counting with Leftovers

Skip-Counting with Leftovers Behaviours/Strategies		
Student does not arrange the counters into groups of the correct size.	Student mixes up or does not know the number to skip-count by.	Student mixes up the numbers in the skip-counting sequence. "5, 10, 20, 30, 40"
Observations/Documentation		
Student skip-counts but does not include the leftovers in the total.  "5, 10, 15, 20"	Student continues to skip-count by the same number to count the leftover counters.  "5, 10, 15, 20, 25, 30"	Student sees groups of counters as one unit, fluently skip-counts by the unit, then counts on by 1s to find the total.  "5, 10, 15, 20, 21, 22"
Observations/Documentation
