

# Master 86: Activity 34 Assessment

## Solving Story Problems

<b>Conceptual Understanding of Addition and Subtraction Situations Behaviours/Strategies</b>			
Student has difficulty creating a story problem for a picture.	Student identifies an addition problem, but has difficulty identifying a subtraction problem.	Student identifies some subtraction problems, but has difficulty identifying a "find the missing part" picture as a subtraction problem.	Student identifies addition and subtraction problems with ease.
<b>Observations/Documentation</b>			
<b>Fluency of Addition and Subtraction Computational Behaviours/Strategies</b>			
Student adds two numbers using counters and counts three times.	Student guesses, then counts on or back to check.	Student successfully solves the addition and subtraction problems but is unable to record the corresponding number sentence.	Student successfully solves the addition and subtraction problems and correctly writes the number sentences.
<b>Observations/Documentation</b>
