

Master 36: Activity 12 Assessment

Drawing a Map

Drawing Maps Behaviours/Strategies

1. Student draws outline to make a simple map based on a familiar setting (classroom), but has trouble placing objects on the map.

2. Student makes a simple map based on a familiar setting (classroom) and locates and represents some, but not all, objects on the map.

3. Student makes a simple map based on a familiar setting (classroom) and places most objects on the map, but struggles with accuracy or relative sizes.

"I don't know how big to draw the bookcase."

Observations/Documentation

4. Student makes a simple map based on a familiar setting (classroom) and places objects accurately, but omits important features in favour of unimportant or personal features.

5. Student makes a simple map based on a familiar setting (classroom), but omits labels or places labels incorrectly.

6. Student successfully makes a simple map based on a familiar setting (classroom).

Observations/Documentation
