

Master 76: Intervention Activity 2 Assessment

Sorting Objects

Sorting Objects Behaviours/Strategies

1. Student sorts a set of objects, but can only sort by colour (cannot sort in different ways).

2. Student sorts a set of objects in different ways, but struggles to determine which group has the most objects.

3. Student sorts a set of objects in different ways and aligns objects to compare, but thinks the longer line always has more.

4. Student successfully sorts a set of objects in different ways using a single attribute and makes comparisons.

Observations/Documentation
