

# Master 52: Activity 19 Assessment

## Drawing a Map

Drawing Maps Behaviours/Strategies		
1. Student draws outline to make a simple map based on a familiar setting (classroom), but has trouble placing objects on the map.	2. Student makes a simple map based on a familiar setting (classroom) and locates and represents some, but not all, objects on the map.	3. Student makes a simple map based on a familiar setting (classroom) and places most objects on the map, but struggles with accuracy or relative sizes.  "I don't know how big to draw the bookcase."
Observations/Documentation		
4. Student makes a simple map based on a familiar setting (classroom) and places objects accurately, but omits important features in favour of unimportant or personal features. 	5. Student makes a simple map based on a familiar setting (classroom), but omits labels or places labels incorrectly. 	6. Student successfully makes a simple map based on a familiar setting (classroom).
Observations/Documentation
