

Master 84: Intervention Activity 9 Assessment

I Spy

Using Positional Language Behaviours/Strategies				
1. Student chooses an object, but is unable to use relative positions to describe the location of the object (does not know positional language).	2. Student uses gestures to describe the locations of objects, but is uncomfortable with most positional language.  "That side!"	3. Student uses relative positions to describe the locations of objects, but struggles with a few positional words such as <i>right</i> and <i>left</i> . "To the left. No, to the right."	4. Student fluently uses relative positions to describe the locations of objects. "Beside the desk, on <i>your left</i> ." "The only thing <i>above</i> the flag."	
Observations/Documentation
