

Master 88: Activity 32 Assessment

Complements of 10

Recalling Complements of 10 Behaviours/Strategies		
1. Student says numbers randomly and is unable to find complements of 10. "4 seeds and 4 seeds"	2. Student finds complements of 10 by counting on with fingers. 	3. Student finds complements of 10 by visualizing a ten-frame. 
Observations/Documentation		
4. Student recalls many complements of 10, but struggles with 0. "I have 0 seeds. I don't know how many more are needed."	5. Student recalls complements of 10, but does not realize that the order of the numbers does not matter (e.g., 7 + 3 and 3 + 7 are the same).	6. Student fluently recalls complements of 10.
Observations/Documentation
