

## Master 8: Activity 3 Assessment

### Creating a Survey

| Conducting Surveys Behaviours/Strategies  |   |  |
|---|---|--|
| 1. Student thinks of a topic, but is unable to formulate a question that can be addressed through a survey.<br><br>"My favourite animal is a panda."  | 2. Student formulates a question that can be addressed through a survey, but does not include sample responses or includes unreasonable responses.<br><br>"Which fruit do you like best?" | 3. Student formulates a question that can be addressed through a survey, but when collecting data, asks some students more than once.                        |
| Observations/Documentation  |   |  |
| 4. Student formulates a question that can be addressed through a survey, but when collecting data, struggles to record responses using simple records.<br><br><div style="text-align: center;">  </div><br>"Which fruit do you like best: apples, oranges, strawberries?" |   |  |
| Observations/Documentation  |   |  |
|   |   | 6. Student successfully formulates a question that can be addressed through a survey, collects data using simple records, and uses data to draw conclusions. |
