#### **Activity 24 Assessment**

#### **Creating and Solving Problems with Larger Numbers**

# **Developing Meaning of Addition and Subtraction** Recognizes addition and subtraction situations Models concretely to add and subtract Models and symbolizes addition and subtraction Part-part-whole Join 78 + 53 = 78 + 53 = 128 131 "I add 5 tens and 3 ones. 78 + 53 = 78 + 50 + 3, or 131" "78" "88, 98, 108, 118, 128, 129, 130, 131" Separate Compare 7 = 5 + \_\_\_\_ **Observations/Documentation**

## **Activity 24 Assessment**

## **Creating and Solving Problems with Larger Numbers**

Estimates sums and differences to check reasonableness  231 – 142 = 89  "230 – 140 = 90, which is close to 89 so my answer is reasonable."	"There are 231 birds in the tree. Some birds flew away. Now there are 142 birds in the tree. How many birds flew away?"  231 - □ = 142 89 birds flew away.	Uses properties and inverse operations of addition and subtraction to solve problems $231 - \Box = 142$ "I can think addition to help me solve the problem: $142 + \Box = 231$ "
Observations/Documentation		

## **Activity 24 Assessment**

## **Creating and Solving Problems with Larger Numbers**

Developing Fluency for Addition and Subtraction		
Fluently adds and subtracts within 5	Fluently adds and subtracts to 10	Fluently adds and subtracts to 20
"I know $4 + 1 = 5$ and $5 - 1 = 4$ ."	"I know 8 + 2 = 10 and 10 – 2 = 8." (complements to 10)	"I can use doubles. I know $9 + 9 = 18$ and $18 - 9 = 9$ ."
Observations/Documentation		
Uses known sums and differences to solve addition and subtraction equations  "25 + 37 = □  I know 25 + 30 = 55, and 55 plus 5 is 60, and 2 more makes 62."  (decomposing, known facts)	Develops mental strategies and algorithms  129 + 232 = □  I take 1 from 32 and give it to 129 to get 130 + 231.  130 + 230 = 360, and 1 more is 361." (compensation)	Estimates sums and differences  149 + 138 = □  "149 is close to 150.  138 is close to 140.  150 + 140 = 290"  (using benchmarks)
Observations/Documentation
