## **Activity 22 Assessment**Using Mental Math to Add and Subtract

## **Activity 22 Assessment**Using Mental Math to Add and Subtract

Estimates sums and differences to check	Creates and salves weeklens	Liene proportion and inverse appretiant of addition
reasonableness	Creates and solves problems	Uses properties and inverse operations of addition and subtraction to solve problems
124 12 - 00	"There are 131 birds in the tree.	404 = 40
131 - 42 = 89 "130 - 40 = 90, which is close to	Some birds flew away. Now there are 42 birds in the tree.	131 − $\square$ = 42 "I can think addition to help me solve the problem:
89 so my answer is reasonable."	How many birds flew away?"	$42 + \Box = 131$ "
	131 − $\square$ = 42 89 birds flew away.	
Observations/Documentation		

## Activity 22 Assessment Using Mental Math to Add and Subtract

Developing Fluency for Addition and Subtraction		
Fluently adds and subtracts to 10  "I know 8 + 2 = 10 and 10 - 2 = 8."  (complements to 10)	Fluently adds and subtracts to 20  "I can use doubles. I know 9 + 9 = 18 and 18 – 9 = 9."	
Develops mental strategies and algorithms $29 + 32 = \square$ I take 1 from 32 and give it to 29 to get 30 + 31. $30 + 30 = 60, \text{ and 1 more is 61.}$ (compensation)	Estimates sums and differences $49 + 38 = \square$ $"49 \text{ is close to } 50.$ $38 \text{ is close to } 40.$ $50 + 40 = 90"$ $(using benchmarks)$	
	Fluently adds and subtracts to 10  "I know $8 + 2 = 10$ and $10 - 2 = 8$ ."  (complements to 10)  Develops mental strategies and algorithms $29 + 32 = \Box$ I take 1 from 32 and give it to 29 to get 30 + 31. $30 + 30 = 60$ , and 1 more is 61."
