

Activity 34 Assessment

Estimating and Counting Money

Estimating Money Amounts

Scans quantity of coins (disregards value of the coins)

"There's a lot of coins. I think it's about \$100."

Uses a referent to estimate the value of a collection of one denomination

"There's about 5 groups of 5 dimes, so about \$2.50."

Estimates the value of a mixed collection of coins to the nearest dollar

"I see about 10 loonies and 10 quarters, which is about \$12."

Makes reasonable estimates of mixed collections in dollars and cents

"There's \$55 dollars in bills and about \$4 in loonies and quarters. I don't think the rest of the coins make a dollar. So, my estimate is about \$59.50."

Observations/Documentation
