

**Ocean Trash Collected**

An environmental group removes trash from the world's oceans. On a recent project, they removed 25 000 kg of trash. The table shows the mass and types of trash collected.

Complete the table.

Type	Mass (kg)	Fraction	Decimal	Percent
Water bottles	8750			35%
Plastic bags	3750			15%
Toys	1250	$\frac{5}{100}$		
Containers	5000		0.20	20%
Other	6250	$\frac{25}{100}$	0.25
