

# Activity 10 Assessment

## Scale Drawings

### Scale Drawings

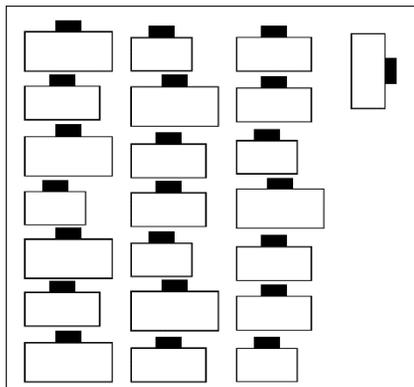

Interprets blueprints and floorplans as top views of rooms

This is the plan for a dorm room. I can see there are 2 beds, 2 desks, and a shared bathroom.

Draws a floor plan for a room, but does not apply an appropriate scale

I made a floorplan of my classroom at school.

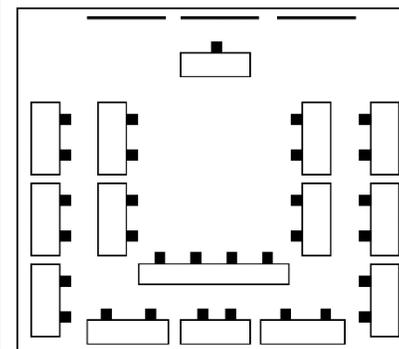

Measures objects accurately and determines lengths needed on a diagram using an appropriate scale

I will use a scale of 2 cm represents 1 m. My desk is 1 m long, so I need to make it 2 cm long on my diagram.

Draws a floorplan using an appropriate scale

I made a floorplan for the computer room at our school. I used a scale of 1 cm = 50 cm.

1 cm = 50 cm

### Observations/Documentation
