

Coin Toss Simulator Challenges Graphing with Google Sheets

Follow these instructions to import and graph data in **Google Sheets**.

1. Open a **Blank** new Spreadsheet in **Google Sheets**.
2. Select **File, Import**.
3. Locate and select the **TossCombo** file.
4. Select **Import data**.

5. Select **Import data**.

Coin Toss Simulator Challenges Graphing with Google Sheets (cont'd)

6. Click on the chart. In the **Chart editor**, click on the pulldown menu for **Chart type** and select **Column chart**.

You may have to right click on the chart and select **Chart style** if you don't see the correct window.

7. You've made a chart!
Change the Title text for the chart.
Adjust the colour if you wish.
A sample is shown here.
