

## Social Media Usage 2

A group of students compared the number of hours spent each day on their favourite social media app.

1.5, 6, 2.75, 0.5, 3.5, 2, 1.25, 8, 3, 1, 0.5, 0

What is the median time?

What is the range of times?

Delete 0 and 8 from the data set.

What are the median and the range now?

Explain how each value changed.

Times for 3 more students are added : 0.75, 2.25, 1

How do these times affect the median and the range?

Explain your reasoning.
