Unit 1 Line Master 3**

Collecting Data Using Sampling Techniques

Purpose of the survey: To determine how a community grant for youth sports and recreation should be spent.

- Write at least three survey questions that you could ask.
- Why did you choose those questions?
- The target population is _____.
- Select and describe two possible techniques you could use to collect the data to ensure you get a representative sample.

Method 1:

Method 2:

- What other things might you consider before conducting the survey?
