Unit 1 Line Master 12

Visualizing Heritage: Indigenous Peoples in Canada

Your task is to create an infographic poster that uses a variety of graphs and charts to communicate key statistics and information about Indigenous peoples in Canada.

Your poster should be visually appealing, informative, and respectful.

With a partner, select a data set from the table below, or choose your own. You might wish to consider issues relating to education, health and wellness, employment, housing, or cultural empowerments.

Data Set	Theme
A: Indigenous Population of Canada, by Percent	Cultural empowerment
B: Percent of Canadians Identifying as Métis	Cultural empowerment
C: Percent of Indigenous People Identifying as Métis	Cultural empowerment
D: Percent of Indigenous Language Speakers, On and Off Reserve	Cultural empowerment, Education
E: Percent of People Who Speak an Indigenous Language Who Are Non-Indigenous	Cultural empowerment
F: Percent of Dwellings in Need of Major Repairs	Housing, Health and Wellness
G: Percent of Canadian-Born Individuals Whose First Language Is neither French, nor English	Education, Cultural empowerment

Take time to explore the given data and find additional information using reliable sources.

Plan your infographic – select the data you will include, as well as what kinds of charts and graphs you will create. Sketch a rough draft of the layout.

Your poster must include at least three different ways to explore, explain, or compare data sets, as well as helpful background information.

You may use technology to create any or all parts of your poster or create your poster by hand.
