

**Solving Equations**

$$\square + 3 = 11$$

$$8 - \square = 2$$

$$3 = \square - 7$$

$$12 = \square + 5$$

8 added to a number  
is equal to 15.  
What is the number?

12 minus a number  
is equal to 8.  
What is the number?

9 is equal to 4 plus a number.  
What is the number?

5 is equal to 12 minus a number.  
What is the number?
