

# Representing Likelihoods with Fractions

The pointer on this spinner is spun.  
Represent the likelihood of each event below  
as a fraction.

Event	Likelihood
A: landing on 2	
B: landing on 3	
C: landing on 4	
D: landing on 5	
E: landing on 6	
F: landing on 2, 3, 4, or 5	
G: landing on an even number	
H: landing on 3, 4, or 5	

## Likelihood Line

Place each event on the likelihood line to show how likely it is to happen.
