

“This book will be your road map to implementing the CCSS Standards for Mathematical Practice. The explanations, examples, activities, and suggestions are intended to guide you to a deepened understanding of the Practice Standards so your classroom is filled with students who reason, apply, and truly understand mathematics.”

—Susan O’Connell and John SanGiovanni

Putting the **Practices** Into **Action**

Implementing the **Common Core Standards** for **Mathematical Practice K-8**

Susan O’Connell and John SanGiovanni

The Standards for Mathematical Practice promise to elevate students’ learning of math from knowledge to application and bring rigor to our math classrooms. But how can we incorporate the Practices into our teaching and ensure that our students develop these critical skills? **Sue O’Connell** and **John SanGiovanni** unpack each of the eight Practices and provide a wealth of practical ideas and activities to help you quickly integrate them into your existing math program.

DEDICATED TO TEACHERS

Putting the Practices Into Action

breaks each Standard for Mathematical Practice down to address:

- why the standard is important
- how to interpret and understand the standard
- how to bring the standard into your current teaching.

The authors show the true power of the standards by describing how they intermingle, blending together to empower students to use math and think mathematically. With classroom vignettes, sample activities, and helpful teaching tips, *Putting the Practices Into Action* brings the standards to life by illustrating what they look like in real classrooms. Discover how to integrate the Practices into your teaching, and let the journey of implementation begin.

Susan O'Connell served as editor of Heinemann's popular Math Process Standards series and wrote the bestselling *Now I Get It* (Heinemann 2005). She has many years of experience as a classroom teacher, instructional specialist, district school improvement specialist, and university PDS coordinator. Currently the director of Quality Teacher Development, Sue is a nationally known speaker and education consultant, providing math professional development for schools and districts across the country.

John SanGiovanni is a mathematics supervisor for the Howard County Public School System in Maryland. He is an adjunct instructor and frequent speaker at both regional and national conferences.

Sue and John are coauthors of the bestselling *Mastering the Basic Math Facts in Addition and Subtraction*, and *Mastering the Basic Math Facts in Multiplication and Division*.
